

The Sentimentalists

"Vintage two-person mind reading with wit and theatrical class"

Based in Toronto, ON | Mentalism

Biography

The Sentimentalists are Canadian mentalists Mysterion and Steffi Kay, a two-person mind-reading act shaped by vintage style, theatrical restraint and dry humor. Their current agency profile offers the duo for corporate functions, private events, trade shows and media appearances, describing routines built around thought transmission, drawing duplication, prediction and audience objects. They have appeared extensively at the Magic Castle and reached a broad audience through America's Got Talent and Fool Us, where they earned a trophy. Research confirms an active booking channel, though it did not establish one exact home city or performer-owned duo website.
