

Tyler Twombly

"Visual magic informed by therapy, speaking and playful design"

Close-Up Magic | Mentalism

Biography

Tyler Twombly is a magician, licensed therapist and speaker whose current performer-controlled links connect live magic, public shows, downloadable teaching and music projects. He appeared twice on Fool Us, presenting visually inventive routines involving moving images and altered faces. The continuing sale of original tutorials and a listed Beverly, Massachusetts show support an active public magic identity, while his cross-disciplinary work suggests a thoughtful interest in perception and human response. Research did not find a clear general event-booking offer, direct professional email or reliable current home address, so availability should remain unresolved.
