

Victor Castañeda

"Corporate mentalist and leadership speaker"

Based in Mexico City | Mentalism

Biography

Víctor Castañeda has spent more than 20 years working as a professional mentalist, and he puts that craft to work in the conference room: talks on business leadership, motivation and personal development, delivered by a speaker his own pages call one of the most sought-after corporate speakers in the industry.

Using mental skill and the principles of illusionism, Víctor plays with the audience's mind in a way few speakers can, reading the thoughts of guests and of the team in the room, and turning astonishment into a push against limiting beliefs. He also hosts and coordinates events, keeping the running order tight while leaving a memorable impression on everyone present. His work has drawn interviews, press coverage and television appearances in Mexican national media.
