

Viktor Vincent

"French mentalist and author"

Based in Paris | Mentalism

Biography

Viktor Vincent is considered the finest mentalist in France, and the experiences he presents are out of the ordinary: their secrets belong to him alone.

His work lives in two places. On stage, he performs mentalism built on material that is entirely his own rather than borrowed from the standard repertoire, which is what gives his experiences their strangeness. Away from the stage he writes books about his art, and that reflection feeds back into the performance. It is an act suited to theatres, galas and evening events for audiences who want something beyond conventional entertainment.
