

Vince Charming

"A Fool Us magician now centered on Americana songwriting"

Comedy Magic | Stage Magic

Biography

Vince Charming is a magician and comic performer whose official magic site preserves his Fool Us appearance and an uplifting-comedy positioning. His current public artist hub, however, is focused primarily on work as an Americana singer-songwriter, bandleader and author, with recent releases and music press materials rather than magic bookings. The evidence therefore supports a real historical magic career and an active creative career, but not a current magician-for-hire offer. FindMagic should retain the verified television profile while asking the performer whether magic remains an available service before exposing booking controls.
