

# Willy Monroe

*"Spanish comedy magic inflated with clever balloon impossibilities"*

Close-Up Magic | Comedy Magic

---

## Biography

Willy Monroe is a Spanish magician recognized for comedy, card work and an original balloon routine that earned a Fool Us trophy. A 2026 Louisville Magic Club event identifies him as an invited lecturer from the Spanish school of magic and confirms continuing professional activity for magician audiences. That current appearance supports an active career and international travel, but research did not locate a durable performer-owned website, direct public booking contact, exact home city or general-event service description. FindMagic should present his verified specialty and current teaching activity while leaving ordinary booking availability unresolved.
