

Woody Aragón

"Spanish card magic where mathematics becomes contagious theatre"

Close-Up Magic

Biography

Woody Aragón is a leading Spanish card magician, creator and teacher known for turning mathematical structures and apparently self-working methods into energetic audience experiences. His current performer-controlled shop publishes teaching, video and written material, while an active Vanishing Inc. profile documents seventeen releases and a dedicated masterclass. Aragón's ideas are performed by major international magicians, and his own Fool Us appearance demonstrated the warmth and contagious enthusiasm central to his work. Research confirms an active creative career in Spain, but not a current general-event booking offer, exact home city or public performance calendar.
