

Yonatan Lavy

"Bilingual Israeli mentalist"

Mentalism

Biography

Bilingual mentalist Yonatan Lavy creates live mind-reading theatre in Hebrew and English, in which the guests, not the performer, do the impossible. He sets the conditions and leads the room while people think of names, draw pictures and hold their own choices in their hands, and then begin reading one another's thoughts.

His evening show Connection is built from material Yonatan Lavy developed himself: each piece stands complete on its own, yet the people, words and choices inside it keep shaping what follows, until separate moments return as one revelation the whole room built together. A psychology degree from Bar-Ilan University shows in the attention the show gives to how people think, choose and react. It suits tech conference booths, company stages, premium private celebrations, weddings and theatre.
